About APSA

Asia-Pacific Structured Finance Association (APSA) was formed in 2006 to promote the efficient growth and continued development of the structured finance throughout the Asia-Pacific region, and to advocate the interests and serve the needs of the structured finance industry.

About the Talk

Hong Kong is widely recognised as a leading international financial centre. It remains as the world's leading offshore RMB centre, China's gateway, and is expected to play a pivotal role in China's Belt and Road initiative.

Four Executive Committee members of APSA (Asia-Pacific Structured Finance Association, <http://www.apsa-asia.com/>) will share their personal experiences about their career choices in the finance industry, and answer your questions to help you make more informed career decisions.
