APSA 2021 Webinar Series

To promote the efficient growth and the interests of the structured finance industry in the Asia-Pacific region, APSA is running a series of webinars in 2021. The webinars will cover emerging topics facing the securitisation industry and will be delivered by experts working in this field.

Webinar 1:

Covid-19, Distressed Assets and Non-Performing Loans (NPLs) Disposals

Covid-19 has rocked the global economy and had a negative impact on many SMEs and consumers around the world. Governments have sought to compensate and established large SME support schemes and borrower moratoriums. While the global financial crisis has given a benchmark for dealing with economic stress, the government schemes call for a novel approach to be taken in securitisation transactions. We will explore this and focus in on the way that banks and non-bank lenders are approaching the growing volume of Covid-19 defaults, how they seek to emerge from the current pandemic and the approach being taken with NPLs and the new government proposals from the EU to India and China seeking to facilitate isolating NPLs from the wider banking system.
